Utilization of Standardized Services Contract Approval Form

The committee recognizes that the Department of the Army has promoted compliance with important sourcing and management laws through the establishment of a Request for Services Contract Approval Form, which is, essentially, a checklist which conveniently and concisely integrates those laws in one form. Accordingly, the committee directs the Under Secretary of Defense for Acquisition, Technology, and Logistics, in coordination and consultation with the Under Secretary of Defense for Personnel and Readiness, to issue policies for implementing a standard checklist to be completed prior to the issuance of solicitation for any new service contract or exercising of any existing contract option for services, including services provided under a goods contract. In implementing a standard checklist, the committee directs the Department to model, to the maximum extent practicable, its policies and checklist on those already used by the Department of the Army.
