Assure beneficiaries of accessible health care; maintains and improves quality of care; improvement of efficiency of direct care systems; assures consistency with national reform efforts; and cost control through the expansion of managed care and greater authority for performance at the region level.

- **REALIGNMENT EXPENSES**

Efforts (excluding alteration of facilities) generated by or directly related to directed realignment.

- **HUMANITARIAN ACTIONS**

Provide medical care at remote locations during emergency or unusual conditions.

ARMY FAIR ACT DEFINITIONS OF FUNCTIONS (ACTIVITIES)
18 October 1999

- **DENTAL CARE ACTIVITIES - CONUS**

Provide dental care and services in CONUS to authorized personnel through the operation of hospital departments of dentistry and installation dental clinics, and the operation of Area Dental Laboratories. Excludes the provision of dental services by units organic to Operating Forces units and dental units operating in an active combat zone.

- **DENTAL SERVICES**

Provide dental care and service to authorized personnel through the operation of hospital departments of dentistry and installation dental clinics.

- **INSTALLATION DENTAL LABORATORY**

Provide dental laboratories in support of a comprehensive dental practice at a specific facility. Excludes the Area Dental Laboratories.

- **DENTAL PROSTHETIC LABORATORY**

Provide prosthetic support to other dental facilities on an area basis.

- **OPHTHALMIC FABRICATION AND REPAIR**

Fabrication and repair of single and multi-vision spectacles for authorized DOD and other designated beneficiaries.

- **DEPARTMENT OF DEFENSE (DOD) MILITARY BLOOD PROGRAM**

Operation of the DOD military blood program. Excludes operation in support of patient care at the facility to which assigned.

- **MILITARY MEDICAL UNIQUE FUNCTIONS AND ACTIVITIES**

Operate Health Facilities Planning Agency (HPFA), U.S. Army Medical Material Agency (USAMMA), Defense Medical Standardization Board (DMSB), Walter Reed Army Institute of Research (WRAIR), Medical Research and Development Command (MRDC), Armed Forces Pest Management Board (AFPMB), Joint Health Activities, U.S. Army Medical Research and Material Command (USAMRMC). Excludes functions and activities included in the definition for Other Health Activities.

- **MEDICAL PLANS, TRAINING, MOBILIZATION AND SECURITY**

Operate medical plans, training, mobilization, and security. (Excludes Nursing Education and Staff Development) (NESD)

Provides DS, GS, and AVIM level maintenance on a geographical area basis; maintains and issues the operational readiness float (when assigned this mission); operates a cannibalization point; provides maintenance technical assistance to supported units and activities; and provides maintenance of all materiel required to operate the installation.

- **MISSILE MAINTENANCE**

Perform DS/GS maintenance of missile systems and associated equipment. Includes electronic and communications equipment that are part of missile systems.

- **ARMY OWNED NON - TACTICAL VEHICLES**

Provides DS/GS maintenance of non-tactical vehicles and associated equipment.

- **ELECTRONIC AND COMMUNICATIONS EQUIPMENT**

Provide DS/GS maintenance of electronic and communications equipment. Exclude electronic and communications equipment which are an integral part of another weapon/support system.

- **BIOMEDICAL EQUIPMENT REPAIR SERVICE**

Maintenance of medical and dental equipment. Perform safety inspections and/or testing, and operation of the preventive maintenance program. Excludes maintenance of other type equipment.

ARMY FAIR ACT DEFINITIONS OF FUNCTIONS (ACTIVITIES)
18 October 1999

- **TACTICAL SUPPORT - MAINTENANCE OF TACTICAL EQUIPMENT**

Perform direct support/general support (DS/GS) maintenance of tactical equipment. Perform DS/GS level G & maintenance but excludes depot level performance. Includes equipment that is (a) directly related to mission performance, (b) is recorded on organization property records, and (c) would normally be deployed with using units. Excludes DS/GS maintenance of TDA equipment, which is reported under base operations.

- **MAINTENANCE**

Return an item to serviceable condition through the repair or replacement of component items.

P100 – INSTALLATION OPERATIONS

- **MUNICIPAL SERVICES**

Perform municipal services as related to real property, including fire protection, custodial services, pest control, refuse collection and disposal, snow and ice removal, street sweeping and demolition of real property. Includes rental of real property when not otherwise identified, and public works management and engineering not otherwise identifiable.

- **REFUSE HANDLING OPERATIONS**

Collect and dispose of installation refuse. Provide for recycling collection and transportation. Provide landfill management and inspection. Ensure sanitary condition of equipment and containers. Does not include hazardous materials. Provide refuse collection and disposal.

- **INDOOR PEST CONTROL**

Develop and implement integrated building/facility pest management strategies. Service includes pest surveillance, pest identification, breeding site removal, pesticide applications, and other required actions to control pests in and around buildings and facilities including family housing. Includes response to emergency and non-emergency service orders. Includes removal and disposal of vertebrate pests.

- **OUTDOOR PEST CONTROL**

Develop and implement integrated open space (outdoor/unimproved) pest management strategies. Service includes pest surveillance, pest identification, breeding site removal, pesticide applications, and other required actions to control pests in open spaces. Includes response to emergency and non-emergency service orders.

- **CUSTODIAL**

Custodial services performed on an installation. Includes training of the workforce that perform custodial services at the installation, supervision and inspections. Includes active and inactive installations.

- **SNOW/ICE, SAND REMOVAL AND STREET SWEEPING**

Snow removal, hauling and disposing; ice alleviation; snow fence erection, maintenance, removal and storage; sand removal resulting from sandstorms; and, street sweeping. Includes active and inactive installations.

R600 – RDT&E

- **BASIC RESEARCH**

Basic Research efforts provide fundamental knowledge for the solution of identified military problems. Includes all effort of scientific study and experimentation directed toward increasing knowledge and understanding in those fields of the physical, engineering, environmental, and life sciences related to long-term national security needs. It provides farsighted, high payoff research, including critical enabling technologies that provide the basis for technological progress. It forms a part of the base for (a) subsequent exploratory and advanced developments in Defense-related technologies, and (b) new and improved military functional capabilities in areas such as communications, detection, tracking, surveillance, propulsion, mobility, guidance and control, navigation, energy conversion, materials and structures, and personnel support. Basic research efforts precede the system specific research described in DoDD 5000.1.

- **APPLIED RESEARCH**

This activity translates promising basic research into solutions for broadly defined military needs, short of major development projects, with a view to developing and evaluating technical feasibility. This type of effort may vary from fairly fundamental applied research to sophisticated breadboard hardware, study, programming and planning efforts that establish the initial feasibility and practicality of proposed solutions to technological challenges. It would thus include studies, investigations, and development effort. The dominant characteristic of this category of effort is that it be pointed toward specific military needs with a view toward developing and evaluating the feasibility and practicability of proposed solutions and determining their parameters. Program control of the Applied Research element will normally be exercised by general level of effort. Applied Research precedes the system specific research described in DoDD 5000.1.

ARMY FAIR ACT DEFINITIONS OF FUNCTIONS (ACTIVITIES)
18 October 1999

- **ADVANCED TECHNOLOGY DEVELOPMENT**

Includes all efforts, which have moved into the development and integration of hardware and other technology products for field experiments and tests. The results of this type of effort are proof of technological feasibility and assessment of operability and producibility that could lead to the development of hardware for service use. It also includes advanced technology demonstrations that help expedite technology transition from the laboratory to operational use. Projects in this category have a direct relevance to identified military needs. Advanced Technology Development may include concept exploration as described in DoDD 5000.1, but is non-system specific (Milestone 0).

- **DEMONSTRATION AND VALIDATION**

Includes all efforts associated with advanced technology development used to demonstrate the general military utility or cost reduction potential of technology when applied to different types of military equipment or techniques. It includes evaluation and synthetic environment, prototypes, and proof-of-principle demonstrations in field exercises to evaluate system upgrades or provide new operational capabilities. The demonstrations evaluate integrated technologies in as realistic an operating environment as possible to assess the performance or cost reduction potential of advanced technology. It may include concept exploration as well as demonstration and validation as described in DoDD 5000.1, but is system specific (milestone 0/1).

- **ENGINEERING AND MANUFACTURING DEVELOPMENT**

Includes those projects in engineering and manufacturing development for Service use. This area is characterized major line item projects and program control will be exercised by review of individual projects. Includes engineering and manufacturing development projects as described in DoDD 5000.1, and may include operational test and evaluation (Milestone 11).

- **RDT&E MANAGEMENT SUPPORT**

Includes efforts directed toward support of RDT&E installations or operations required for use in general research and development (R&D) and not allocable to specific R&D missions. Included are technical integration efforts, technical information and activities, space programs, major test ranges, test facilities and general test instrumentation, target development, support of operational tests, international cooperative R&D, and other R&D support.

ARMY FAIR ACT DEFINITIONS OF FUNCTIONS (ACTIVITIES)
18 October 1999

- **OPERATIONAL SYSTEMS DEVELOPMENT**

Includes R&D effort directed toward development, engineering, and test of changes to fielded systems or systems already in procurement which alter the performance envelopes. May include operational test and evaluation. Also includes R&D support to miscellaneous operational efforts such as Manufacturing Technology, Communications Security Equipment, Horizontal Battlefield Digitization, Joint Biological Defense, Satellite Communication Ground Environment, various classified programs, etc. Program control will be exercised by review of individual projects.

- **TECHNOLOGY TRANSFER FUNCTIONS AND INTERNATIONAL COOPERATIVE PROGRAMS**

Review and evaluate munitions cases, US and Allied strategic trade cases, technical data exchange agreements, information exchange projects, science and technology agreements, reciprocal memorandums of understanding, and other similar agreements. Development and maintenance of military critical technologies list, coordinating committee control commodities list, and munitions list reviews. Participation on technical advisory committees and steering and working groups concerned with export control and technology transfer and other appropriate technology transfer activities. Participation in international for a (NATO, ABCA, etc...). Develop, staff and maintain International Standardization Agreements. Develop, staff and maintain cooperative research and development projects and agreements.

R000D/S000D/TOOOD/Y000D/Z000D - - ADMINISTRATIVE SUPPORT

- **ADMINISTRATIVE SERVICES**

Management of information from creation to final disposition according to federal laws and Army record keeping requirements. Provide or obtain forms, official publications, instructional materials, and printing services. Support formal files/records management programs. Archive official records, either hard copy or electronic. Operate installation mail and record/document distribution centers.

S700- NATURAL RESOURCES SERVICES

- **AGRICULTURAL/GRAZING OUTLEASE**

Administration and management of agriculture/grazing activities including preparation of tract management plans and soil tests. Includes outlease improvement projects (e.g. soil erosion control, fence repair, access roads maintenance) and Natural Resources Projects that implement INRMPs (e.g. inventories, surveys, habitat improvement).

- **CLEAN AIR**

Perform projects and activities to achieve compliance with the Clean Air Act, and other applicable Federal, state, local, or host nation or Final Governing standards for air quality. Includes corrective actions, design, repair or minor construction to improve facilities when necessary to reduce toxic emissions, eliminate asbestos or radon hazards, or eliminate ozone depleting substances (ODS). Includes initial emissions inventories; procurement and installation of equipment; implementation of National Emission Standards for Hazardous Air Pollutants; conformity determinations; radon and asbestos investigations and mitigation, except where costs are incidental to a routine repair/minor construction project, unless the asbestos mitigation is over 50% of total project cost; and other studies, assessments, audits, and plans.

- **FOREST PRODUCTS PRODUCTION AREAS**

Perform forest improvements (thinning, pruning); reforestation; disease and insect protection; fire prevention; forest access roads and trails; sales; maintenance and operation for forest management equipment; administration and management of forestry activities; surveys for cultural/archeological sites impacting on production; land maintenance and repair (soil erosion and sediment control); mission utility of land (tactical corridors, available usage, realism); and assessment of ecological risks (biodiversity, communities).

- **HAZARDOUS WASTE**

Perform projects and activities to achieve compliance with the Resource Conservation and Recovery Act (RCRA) - Subpart C and other applicable Federal, state, local, and host nation or Final Governing Standards for hazardous waste management. Includes corrective actions, design, repair or minor construction of hazardous waste storage and treatment facilities necessary to meet RCRA standards. Includes spill prevention containment and countermeasures at hazardous waste management sites; emergency response plans; procurement and installation of equipment; closure; and other compliance studies, assessments, audits, and plans. Does not include recurring hazardous waste disposal.

ARMY FAIR ACT DEFINITIONS OF FUNCTIONS (ACTIVITIES)
18 October 1999

- **NATURAL RESOURCES PLANNING LEVEL SURVEYS**

Perform surveys or inventories to determine the presence and extent of natural resources subject to installation management. Perform installation-wide planning level surveys and inventories to characterize topographic features, classify and monitor surface waters, soils, species (but excluding surveys conducted for federally listed species in compliance with the Endangered Species Act), and other ecological units as necessary to develop baseline data for preparation of Integrated Natural Resources Management Plans, and compliance with Sikes Act. Analyze, interpret and update planning level survey data.

- **PERMITS AND FEES**

Permits and fees required by Federal, state, local and other government agencies related to laws and regulations impacting on environmental compliance, conservation, and pollution prevention activities. Includes studies, data collection and analysis required for permits, and document preparation. Includes preparation of permit applications required by Clean Air Act, Clean Water Act, Safe Drinking Water Act, Resource Conservation and Recovery Act, and other Federal and state environmental laws and regulations.

- **RECURRING COMPLIANCE**

Perform sampling, analysis, and monitoring, hazardous waste disposal, annual audits and assessments, training, education and environmental awareness.

- **RECURRING NATURAL & CULTURAL RESOURCES**

Manage conservation program. Includes environmental management activities associated with the operation of facilities, and deployed weapons systems, such as personnel, professional training, supplies, permits, fees, monitoring, sampling, data analysis, natural and cultural resources awareness, land maintenance and rehabilitation including erosion control and controlled burns, record keeping, and reporting (e.g., Endangered Species Expenditures Report, Federal Archaeology Report, and Sikes Act reporting requirements).

- **RECURRING POLLUTION PREVENTION**

Provide recurring reports, audits, and assessments to monitor environmental conditions, and operation and maintenance of pollution prevention data management systems and equipment.

ARMY FAIR ACT DEFINITIONS OF FUNCTIONS (ACTIVITIES)
18 October 1999

- **OTHER COMPLIANCE**

Initiate and complete projects and activities to achieve compliance with other Federal, state, local, and host nation or Final Governing standards, including corrective actions, design, repair or minor construction of facilities necessary to meet standards. Comply with Noise Control Act (NCA); Toxic Substance Control Act (TSCA), including PCB compliance such as replacement of PCB contaminated transformers; pre-manufacture notification associated with new chemicals or new use of chemicals.

- **OTHER NATURAL RESOURCES MANAGEMENT**

Perform studies, assessments, audits, monitoring, testing, technical equipment and supplies, fish and wildlife management, vegetation and forest management, pest management and noxious weed control. Proper handling, storage and use of pesticides/herbicides; repairs or construction of facilities to comply with hazardous materials handling and related equipment and supplies; studies, analysis, assessments related to selection and application of pesticides/herbicides; and quarantine operations of pests detrimental to natural resources.

- **REVENUE GENERATING ACTIVITIES**

Maintenance and management of revenue generating areas (timber, pulpwood, fuelwood, mulch, Christmas trees, grazing, agricultural outleases, etc.). Maintain resource-generating capability including equipment, personnel, planning, surveys, volume inventories, training, and professional meetings.

S701 – PUBLIC AFFAIRS

- **FIELD ACTIVITIES, PUBLIC AFFAIRS**

Provides for public information and community relations activities, as described below, located at a field operating agency (excludes management headquarters). Public information includes all functions and activities which are performed primarily for the purpose of providing official information about the Army to the public and public media, such as press, radio and television. The community relation classification applies to all functions and activities which are performed primarily for the purpose of contributing to good relations between the Army and all segments of the civilian population to help foster mutual acceptance, respect and cooperation. Includes travel, communications, utilities, and facilities. Excludes the purchase of food and beverages for official entertainment purposes.

- **COMMUNITY RELATIONS**

Increase public awareness of the Army's mission, policies and programs, inspire patriotism, foster good relations with the various publics with which the Army comes into contact at home and abroad, maintain the Army's reputation as a respected professional organization responsible for national security and support the Army's recruiting and personnel procurement mission.

- **NEWS MEDIA FACILITATION**

Includes assisting media entry, registering media representatives, orienting them on ground rules for coverage, ensuring they understand security policies, arranging interviews and briefings, coordinating organization visits and escorts, providing thorough and timely responses to media queries.

- **INFORMATION STRATEGIES**

The execution of synchronized programs for communicating to serviced audiences to achieve specific goals. This includes the acquisition, production, distribution and protection of information.

- **MUSEUM ACTIVITIES**

Provides for operation of Army Museums at installation level.

S710 – PEST MANAGEMENT

- **PEST MANAGEMENT**

Provide control measures directed against pests such as; insects, rodents, birds, and fungi for buildings and grounds. Excludes herbicide and fertilizer application, tree removal, and similar functions. Excludes repair damage to buildings, structures, or screens as a result of the pest damage. Includes active and inactive installations.

- **INDOOR PEST CONTROL**

Develop and implement integrated building/facility pest management strategies. Service includes pest surveillance, pest identification, breeding site removal, pesticide applications, and other required actions to control pests in and around buildings and facilities including family housing. Includes response to emergency and non-emergency service orders. Includes removal and disposal of vertebrate pests.

- **OUTDOOR PEST CONTROL**

Develop and implement integrated open space (outdoor/unimproved) pest management strategies. Service includes pest surveillance, pest identification, breeding site removal, pesticide applications, and other required actions to control pests in open spaces. Includes response to emergency and non-emergency service orders.

S718 – FIRE PREVENTION AND PROTECTION

- **FIRE AND EMERGENCY RESPONSE SERVICES**

Develop and implement installation fire protection policies and programs. Inspect for hazards and level of compliance with fire protection and prevention plans. Train installation personnel in fire prevention techniques. Provide emergency response to, and control of, fires.

S724 - GUARD SERVICE

- **FORCE PROTECTION**

Develop a security program that protects soldiers, civilians employees, family members, facilities, and equipment through the planned integration of combating terrorism (AT/CT), physical security, information operations, personal security, and law enforcement operations with the synchronization of operations, intelligence, training and doctrine, policy, and resources.

- **INSTALLATION SECURITY PROGRAM MANAGEMENT SUPPORT**

Conduct counterintelligence support activities. Provide security training and security inspections. Administer foreign disclosure program and installation information and personnel security programs. Provide intelligence support to force protection.

- **PHYSICAL SECURITY**

Provide physical security inspection, survey, and technical assistance services for installation facilities. Conduct Mission Essential Vulnerability Assessments (MEVA). Conduct risk analysis for installation facilities and assets. Prepare physical security inspection and survey reports.

- **PHYSICAL SECURITY/ANTI-TERRORISM - TRAINING PROGRAM (ARNG ONLY)**

Train, license and certify security guards.

- **SECURITY PROGRAMS**

Support the National Foreign Intelligence Program and Security and Investigative Activities and assist the Army to fulfill its role in implementing the National Military Intelligence Estimate. Assist the Army to fulfill its role in securing world peace through its contributions in the implementation and compliance of international treaties. Expected outcome is full compliance with all international defense/military treaties and support of national intelligence objectives.

- **SECURITY AND INTELLIGENCE ACTIVITIES**

Counterintelligence support to Force Protection, personnel security, information security, and other intelligence related activities. Provides full range of CI and intelligence support, equipment and facilities.

- **ANTI-TERRORISM/FORCE PROTECTION**

Support to Unified Commands and Joint Staff which is validated as a Force Protection or Anti-terrorism mission.

S725 – S730: UTILITY SERVICES

- **GENERAL DEFINITION:** Maintenance and Repair of Utility Systems. Includes M&R of water pumping plants, purification plants, and distribution systems, sewage pumping plants, treatment plants and sewage collection systems; industrial waste disposal systems; electric distribution systems and exterior lighting, electric distribution systems transformers and generating systems; liquid fueling and dispensing facilities, cold storage plants, and AC plants; miscellaneous refrigeration; and central and installed air compressors. Includes M&R of above ground and underground storage facilities, connection charges levied by a private firm or public municipality for the physical "tie-in" or "connection" to the source system when it replaces a failed or failing existing system, liquid fuel dispensing systems, liquid storage facilities, liquid fuel storage facilities, fuel POL lines, standby generating plant equipment, all heating equipment not already identified, ventilating fans, evaporative cooling systems, M&R and testing of all fire alarm systems, intrusion detection systems, fire extinguishing systems (beyond the 5ft line of K2 buildings), acetylene plant equipment, inert gas lines, compressed air equipment, compressed air lines, vacuum lines, dehumidification equipment, oxygen plant equipment and utilidors. Does not include M&R of installed utility equipment that is used only for the building in which it resides. Includes active and inactive facilities.
 - **S727: Water Utilities:** Purchased water and operation of water treatment plants to include pumping at treatment and source pumping plants; impounding reservoirs; and all wells, cisterns, springs, chlorinators, chemical feeders located in the pumping plants that are used to produce and distribute filtered water. Includes active and inactive installations.
 - **S728: Waste Water Utilities:** Purchased sewage disposal and operation of sanitary and industrial waste water pumping and treatment plants at active and inactive installations.
 - **S725: Electric Utilities:** Purchased electric energy (by contract or from another government agency) and the operation of main electric generating plants at active and inactive installations. Excludes operation of auxiliary generators, portable generators, frequency changers, electric motor-driven generator sets and rectifiers, unless installed as generating plant accessory equipment.

ARMY FAIR ACT DEFINITIONS OF FUNCTIONS (ACTIVITIES)
18 October 1999

- **S726/S729: Heating/Cooling Utilities:** Purchased steam and hot water and operation of boiler plants, high pressure, and heating plants and systems of all types and capacities at active and inactive installations. Includes immediate consumption of coal, storage and related handling. Operation of air conditioning plants, cold storage plants, heat pumps, and ice manufacturing plants of all tonnage capacities at active and inactive installations.
- **S730: Other Utilities:** All utility operations which can not be separately identified in above accounts. Includes rental costs for portable latrines in support of Facilities Engineer functions and one-time costs attributable to base closures or reduction in force actions. Includes connection charges levied by a private firm or public municipality for the physical "tie-in" or "connection" to the source system.

S730 – OTHER UTILITIES OPERATION AND MAINTENANCE

- **OPERATION OF UTILITIES**

Procurement or production and distribution of utilities except communications. Includes expenses for purchased electrical energy; operation of electric generating plants and distribution systems; purchased steam and hot water; operation of heating plants and distribution systems, including fuels; purchased water; operation of water plants and systems and sewage and waste systems; operation of air-conditioning and refrigeration plants; other purchased utilities and related administration.

- **WATER SERVICES**

Purchased water and operation of water treatment plants to include pumping at treatment and source pumping plants; impounding reservoirs; and all wells, cisterns, springs, chlorinators, chemical feeders located in the pumping plants that are used to produce and distribute filtered water. Includes active and inactive installations.

- **WASTE WATER SERVICES**

Purchased sewage disposal and operation of sanitary and industrial wastewater pumping and treatment plants at active and inactive installations.

- **ELECTRIC SERVICES**

Purchased electric energy (by contract or from another government agency) and the operation of main electric generating plants at active and inactive installations. Excludes operation of auxiliary generators, portable generators, frequency changers, electric motor-driven generator sets and rectifiers, unless installed as generating plant accessory equipment.

- **HEATING/COOLING SERVICES**

Purchased steam and hot water and operation of boiler plants, high pressure, and heating plants and systems of all types and capacities at active and inactive installations. Includes immediate consumption of coal, storage and related handling. Operation of air conditioning plants, cold storage plants, heat pumps, and ice manufacturing plants of all tonnage capacities at active and inactive installations.

- **GAS SERVICES**

ARMY FAIR ACT DEFINITIONS OF FUNCTIONS (ACTIVITIES)
18 October 1999

- **OTHER UTILITY SERVICES**

All utility operations which can not be separately identified in above accounts. Includes rental costs for portable latrines in support of Facilities Engineer functions and one-time costs attributable to base closures or reduction in force actions. Includes connection charges levied by a private firm or public municipality for the physical "tie-in" or "connection" to the source system. Includes active and inactive facilities.

- **UTILITY SYSTEMS**

- **WATER SYSTEMS**

Provide water service throughout the installation including housing. Includes installation, maintenance and repair of distribution system.

- **ELECTRICAL SYSTEMS**

Provide electric service throughout the installation including housing. Includes installation, maintenance and repair of distribution system.

- **OTHER UTILITY SYSTEMS (INCLUDING DAMS)**

Provide other utility systems (including dams) maintenance and repair throughout the installation including housing. Includes installation, maintenance and repair of distribution system.

- **UTILITY SYSTEMS BUILDINGS**

Provide utility systems building maintenance and repair throughout the installation including housing. Includes installation, maintenance and repair of distribution system.

S731 – SUPPLY OPERATIONS

- **SUPPLY OPERATIONS AND MANAGEMENT**

Operation of consolidated post supply functions. Includes operation of self-service supply center, clothing issue points, and POL resale points.

- **CENTRAL ISSUE FACILITIES (CIF)**

Operation of Central Issue Facilities for the purpose of providing military personnel required Organizational Clothing and Individual Equipment (OCIE) supplies. Includes necessary alterations performed as part of the operation of a CIF.

- **CLOTHING INITIAL ISSUE POINTS (CIIP)**

Operation of Clothing Initial Issue Points for the purpose of providing initial issues of clothing to enlistees, inductees, etc. Includes necessary alterations performed as part of the operation of a CIIP.

- **RETAIL SUPPLY**

Provide installation retail supply services (receipt, storage and issue, requisition processing, and equipment turn-in) to customers. Does not include Central Issue Facilities (CIF) or Clothing Initial Issue Points (CIIP).

- **ASSET MANAGEMENT**

Provide installation non-expendable property accountability and related asset sustainment actions. Includes preparation and maintenance of hand receipts, performance of CBS-X re-evaluation reconciliation process, maintenance of unit equipment documents, redistribution of excess property, and conduct of associated transaction process integrity and security.

- **LAUNDRY AND DRY-CLEANING SERVICES**

Operating laundry and dry-cleaning plants and contracting for such services where Army-owned plants are not operated.

- **THE ARMY FOOD SERVICE PROGRAM**

Operation and administration of food supply and food preparation facilities; i.e., garrison bread bakeries, dining facilities, central pastry kitchens, and ration processing and distribution points. Operate milk plants in overseas areas.

- **DINING FACILITIES, FOOD SERVICE ATTENDANTS (KP's)**

Provide civilian food service attendants (KP's) except if dining facilities are already operated under full contract operation.

ARMY FAIR ACT DEFINITIONS OF FUNCTIONS (ACTIVITIES)
18 October 1999

- **DINING FACILITIES, COOKS**

Provide civilian cooks except if dining facilities are already operated under full contract operation. Excludes cooks in MTOE units as part of Army Field Feeding System.

- **DINING FACILITIES, FULL CONTRACT OPERATION**

Operation of dining facilities, to include management, cooks and KP's.

- **LOGISTICS SUPPORT ACTIVITIES**

Support to the Army's total logistics chain, ensuring the Army can perform its missions both in peace and in war. Excludes operation of overseas and CONUS field commands.

- **ATTENDANT CENTRAL SUPPLY SERVICE**

Operation of centralized packaging offices, laboratory and test facilities, TAG printing of Army forms and publications, and such other functional performance not directly identified to a single budget activity.

- **OTHER LOGISTICS SUPPORT ACTIVITIES**

Establish product lines (ammunition and end items). Includes Department of Defense small arms Serialization Program, Chemical Agent Standard Analytical reference materials, procurement for radioactive waste, central Procurement activities in support of research and development activities and other unique activities which do not contribute to established product lines.

- **CENTRAL STERILE SUPPLY AND MATERIEL SERVICES**

Operation of these services combined.

- **MATERIEL SERVICES**

Support for the procurement, inventory control, receipts, storage, quality assurance, issue, turn-in, disposition, property accounting and reporting, and other related functions.

- **LINEN AND LAUNDRY SERVICES**

Operation of the linen and laundry service. Includes linen procurement, repair, fabrication, pickup, and delivery services.

- **FOOD SERVICE**

Operation and maintenance of food production service to include food procurement, preparation and delivery service. (See AR 40-3)

S740 – TRANSPORTATION MANAGEMENT SERVICES

- **TRANSPORTATION SERVICES**

Operation of and, where specified, maintenance and provision of transportation equipment for local transportation support services. Includes contractual transportation equipment, such as contractual bus service, GSA leasing, other leasing, and other transportation expenses, such as local drayage, which are local in character.

- **NON-GSA TRANSPORTATION MOTOR SERVICES**

Provides for operation of and operator/organizational maintenance IAW TM 38-600 of installation transportation motor pool services. Includes government owned and leased passenger carrying and general purpose vehicles; rented and non-GSA leased commercially owned vehicles utilized as components of the Army non-tactical wheeled fleet; local mass transportation media; taxicabs and privately owned vehicles. Provides for the operation of rail/water craft equipment assigned to commands and installations, except ports. Also includes commercial hire of water craft.

- **INSTALLATION TRANSPORTATION OFFICE OPERATIONS**

Provide transportation management services relating to commercial transportation of persons and things at Army installations; including contracted services in connection there with and custom inspections.

- **GSA-OWNED AND LEASED TRANSPORTATION**

Support of GSA-owned and leased non-tactical vehicles.

- **MOVEMENT OF PRIVATELY-OWNED HOUSEHOLD GOODS**

Includes packing, crating, storage, unpacking, uncrating, shipping, or storage cartons and boxes; servicing for transportation of household appliances, such as refrigerators, stoves, washers, dryers, and local drayage charges. Excludes all movements and storage incident to permanent change of station. Storage and movement of privately-owned household goods of military personnel (and civilian personnel in overseas areas) in connection with assignment, reassignment, or termination of Government-furnished family housing or quarters, when no permanent change of station orders are issued.

ARMY FAIR ACT DEFINITIONS OF FUNCTIONS (ACTIVITIES)
18 October 1999

- **TRANSPORTATION**

Perform the physical movement of materiel from the point of origin (point of issue) to the point of interim or final destination (point of receipt).

- **CONUS**

- The physical movement of materiel within the boundaries of the Continental United States.

- **OVEROCEAN TRANSPORTATION**

- The physical movement of materiel from one port to another.

- **ONWARD MOVEMENT OVERSEAS**

- Physical movement of material after receipt at an overseas (OCONUS) port.

- **TRANSPORTATION SERVICES (MTMC)**

Operate and manage common-user water terminals, administers freight movement within the United States, perform transportation engineering, administer the movement of intermodal containers and manage all passenger traffic within the United States.

S750 – MUSEUM OPERATIONS

- **MUSEUM ACTIVITIES**

Provides for operation of Army Museums at installation level.

S999 – OTHER INSTALLATION SERVICES

- **LEASED HOUSING**

Operation, maintenance and repair, and leases of family housing leased from foreign governments, private owners, FHA, and VA that are designated as public quarters.

- **CONSTRUCTION AND REAL ESTATE ADMINISTRATION**

Supervise and direct activities engaged in design and construction of military programs. Perform facilities investigations applications tests, and studies including publication of new design and methods of construction and surveys and analysis. Construction support programs including the following: Force Modernization, Facilities Investigation studies, Energy Engineering Analysis Program, Centers of Expertise, Road Cage, and DOD Facilities System Safety Program. Operation of the automated system for programming, administration, and execution (PAX) of the justification document for Military Construction. Develop and publish planning, guidance, design drawings, bills of materials, construction management guides, and listings in automated files describing prefabricated and relocatable facilities, buildings, other structures and works required by land based military forces for base development, line of communications activities, and tactical operations and contingency situations. Administration of real estate, including project planning, acquisition activities, compliance and utilization inspection, in-leasing, out-granting, and disposal. Perform engineering, mapping, planning, support to environmental compliance activities, and other construction and utilization services related to active installations, whether performed in house or by contract, such studies as required to establish and define adequacy of existing facilities and project future facility and environmental requirements to satisfy the established or projected missions.

- **REAL ESTATE/REAL PROPERTY ADMINISTRATION**

Administer Army real estate. Ensure real property accountability. Maintain real property instruments. Provide construction administration services for installation projects.

- **RECRUITING LEASES**

Execute and manage the DoD recruiting program.

- **REAL ESTATE LEASES**

Execute real estate leases, to include DoD recruiting and Military Entrance Processing Stations in the Continental USA, Hawaii, Alaska, Puerto Rico and Panama.

ARMY FAIR ACT DEFINITIONS OF FUNCTIONS (ACTIVITIES)
18 October 1999

- **BASE OPERATIONS SUPPORT**

Provide an installation infrastructure with an acceptable quality of life for the operating forces soldiers and families. Provide a power projection platform capable of mobilizing, deploying, recovering and reconstituting act component and mobilization forces.

- **FORCE READINESS OPERATIONS SUPPORT**

Support of key activities essential to the readiness of the Land Forces. Includes operation of training ranges and associated activities, operation of USAR Training Divisions, individual, incremental expenses for JCS exercise, reserve component support to active component. Includes audio-visual and visual information support management, administration and operation of local, MACOM, Army-wide and joint service audio-visual activities. Includes motion picture and video production with sound as well as production of visual images, still and motion picture photography, multimedia, sound/aural, video without sound, graphic art presentation facilities, radio and TV closed circuit and broadcast (less Army Broadcast Service), repair and maintenance, visual information, library services, records holding areas, combat and technical documentation, and video teleconferencing terminals. Excludes graphic training aids, training devices, and maintenance of training devices which are chargeable to other base support accounts.

- **TROOP ISSUE SUBSISTENCE ACTIVITIES (TISA)**

Operation of the TISA to provide subsistence to authorized activities. Excludes building maintenance and repair provided under base operations accounts and equipment exceeding the expense/investment criteria. Excludes TISA functions performed at RDTE and DBOF financed installations.

- **OPERATIONS OF TROOP ISSUE SUBSISTENCE ACTIVITIES (TISA)**

Operation of TISA, excluding administrative support.

- **OTHER SUPPORT SERVICES**

Perform other miscellaneous nonprofessional support services performed in support of patient care missions. Includes engineer liaison function and serves as a carrier account for supplies issued to a holding point then reissued to consuming activities.

- **COMMISSARY**

Conduct inspections in commissaries only.

- **OTHER**

Perform all other inspections to include troop issue, supply point, depot and operational rations.

T804 – ARCHITECT ENGINEERING

- **ARCHITECT-ENGINEERING SERVICES**

This functional descriptor was utilized as an exception in reference to design and modification of utility systems. Please refer to functional category S725 – S730 for more specifics on operation and maintenance of utilities and utility facilities.

T806 – PRINTING AND REPRODUCTION

- **PUBLICATIONS, PRINTING, AND REPRODUCTION**

Centrally managed and operated field printing plants to include GOCO facilities. Includes operation and support of the US Army Publication and Printing Command. Printing, reproduction, and publishing services and products not identified elsewhere.

T807 – CENTRALIZED VISUAL INFORMATION

- **AUDIOVISUAL AND VISUAL INFORMATION PRODUCTION, ACQUISITION AND SUPPORT**

Management, administration, and operation of installation, MACOM, headquarters and Joint Visual Information Service and activities. Visual Information provides services associated with production, acquisition, and support of visual images, either permanently recorded or temporarily displayed, transmitted, or reproduced including in-house or contract operation pertaining to still and motion picture photography, multimedia sound/aural, video without sound, graphic art, presentation facilities, radio and closed circuit television and broadcast (less Army Broadcast Service), cable television, video disc, repair and maintenance of equipment, visual information library services, visual information records holding facilities, combat and technical documentation and video teleconferencing terminals. Audiovisual services provides motion picture and video production with sound. Excludes graphic training aids; training device fabrication; stock, store, loan and accountability of training devices; and training device maintenance.

T813 – ENGINEERING AND TECHNICAL SERVICES

- **ENGINEERING & TECHNICAL SERVICES**
 - This functional descriptor was utilized as an exception in reference to design and modification of utility systems. Please refer to functional category S725 – S730 for more specifics on operation and maintenance of utilities and utility facilities.

T999 – OTHER NON-MANUFACTURING OPERATIONS

- **AMMUNITION SUPPLY**

Provide installation retail ammunition supply service (receipt, storage and issue) to customers. Includes Quality Assurance Surveillance Ammunition Supply (QASAS) support. Does not include Ammunition Supply Points (ASP) operated by tactical units.

- **AMMUNITION COMMODITY MANAGEMENT**

Provide Army program management activities as the single manager for conventional ammunition, and other associated activities for Army unique conventional ammunition program management. Includes executive director for conventional ammunition, conventional ammunition supply depot support, conventional ammunition inventory control point operations, and procurement operations, contract administration activities, demilitarization activities. Includes Army CONUS war reserve management/accountability functions. Excludes Army PREPO/OCONUS war reserve management/accountability functions. Also excludes toxic chemical munitions.

- **FABRICATION**

Produce or assemble artillery weapons, small arms, ammunition, or other items from raw materiel or component items.

- **RECEIPTS**

Receive materiel involving physical handling and movement directly from transportation vehicle to permanent storage area; checking, tallying, and inspection of incoming materiel as to number of containers, and item count; physical handling within storage area incident to receiving; consolidation of stock within same storage area incident to receipt operations; documentation incident to the above operations; bin storage of new receipts and bin storage of bin replenishments; associated supervision and clerical effort related to receiving.

- **DEMILITARIZATION**

Includes roads constructed of concrete, bituminous, gravel, stabilized, graded, or other hard surfaced (e.g. cobblestone, paving block, etc.) streets, service drives, alleys, sidewalks, open storage areas, parking areas, aircraft runways, aircraft taxiways, aircraft aprons, hardstands, vehicular and railroad bridges, training bridges, railroad trestles and appurtenances such as shoulders, culverts, storm drainage features, subgrade drains, and foot bridges, and covered walks not attached to a building. Includes traffic control signs and markings, pavement numbering and marking, and tie-down anchors. Excludes footbridges. Includes all active and inactive facilities.

Z997 – MAINTENANCE AND REPAIR OF RAILROAD FACILITIES

- This functional descriptor was utilized only in reference to utility plant facilities at specific locations. Please refer to functional category S725 – S730 for more specifics on operation and maintenance of utilities and utility facilities.
- Provide maintenance and repair of all railroad infrastructure, including track, trestles, and associated structures. Does not include operation and maintenance of rolling stock.

Z998 – MAINTENANCE AND REPAIR OF WATERWAYS

- **CIVIL WORKS:**

- Services that support both the sustaining base and the theaters of operation. Includes dredging, lock operations and maintenance and expansion of the in-land waterway transportation systems, environmental restoration of contaminated waters and lands, emergency operations in case of natural disaster which sustain the industrial operating base and providing personnel support services.
- Activities include management and direction of the nation's water and related environmental resources, developing and managing programs; includes research and development, real estate and material acquisition, planning, design, construction, project management, regulatory management, and operating projects for navigation, flood control, major drainage, shore and beach restoration and protection, related hydroelectric power development, water supply, water quality control, wetlands management, fish and wildlife conservation, enhancement of outdoor recreation, dredging, revetment and emergency operations, environmental restoration, and provides support to other nations, federal, state, and local governments.
- Incorporates the elements of strategic management that enables the Commander to chart the long range and near term course he expects the organization to follow in meeting the program and operation guidance of Congress. It is the process that combines the function of leadership with strategic planning. It involves the essential management functions for which the Corps of Engineers is responsible and that are directly linked to the core process. The process of efficient acquisition, allocation and use of resources to effectively accomplish assigned missions. Includes planning, programming, budgeting, allocating, executing, accounting and reprogramming.
